## Course Benefits

This course is designed to help you prepare for the PMP® Exam and gain the most understanding of project management with the least amount of study. Through practice exams, workshops and overnight study, you learn essential PMBOK® Guide terminology, tools and techniques. This course provides 35 PDU to satisfy PMP® Exam eligibility requirements.

PMP Certified Professionals have an extra edge over others. Usually the projects are not completed within the given time frame and given budget, however PMP's allow a structured approach towards the projects for a successful project.

It also gives an opportunity to evaluate your own strengths and weaknesses in the process of earning the certification, and have a broader understanding of the skills and toolsets that can be effective in running projects.

- There would be two mockup evaluation sessions similar to live PMP exam for preparing the participants for taking the test.
- Each participant receives a course folder containing all the relevant training material.
- Upon completion of this course certificates will be awarded.

## Who Should Attend

- All Professionals
- Project Team Members,
- Managers and Project Managers who plan to take the PMP® exam.

## Instructor's Profile

The Course is delivered by a renowned PMP Certified Trainer & a Project Management Consultant who has conducted over 100 professional courses & workshops and got over nine years of working experience with Private, Public and International Organizations. He has been associated with leading universities of Pakistan including NUST, COMSATS, Bahria & Iqra.
